

## **Famous Dave's Moisture Tan Product Description and Application Instructions**

### **Famous Dave's Self Tanner Sunsafe Tanning For Men & Women**

Famous Dave's Self Tanner creates a golden tan without the need for age robbing sun or tanning bed exposure. While bringing out a natural looking bronzed glow, Famous Dave's Self Tanner bathes your skin in the rich emollients of Aloe Vera, Sesame and Jojoba which soften and add healthy moisture. Since Famous Dave's Self Tanner is fragrance-free, you won't experience the developing odour of self tanning on your skin.

Those with a tan will enjoy how Famous Dave's Self Tanner compliments your existing tan by deepening and evening out skin tones. Use all year long to provide a tan without drying sun exposure and tanning beds.

---

### **Application**

Exfoliate well before use to ensure you are tanning new skin and not dead skin cells.

*Do not apply other products on your skin before first use.*

Apply Famous Dave's Self Tanner lotion on clean, dry skin. Rub in smoothly and evenly.

Be sure to apply a sufficient amount (a pea-sized amount is enough for the face).

Avoid direct use on knees and elbows (use a barrier cream where needed) and blend evenly around ankles, toes, wrists, fingers etc.

Wash hands thoroughly with soap for AT LEAST 30 seconds after each use to avoid tanned palms.

Re-apply after 4-6 hours for a darker tan.

---

**Remember Famous Dave's Tanner will tan you where you put it – haphazard or sloppy application will result in a blotchy, uneven tan. Patches or streaks are caused by insufficient exfoliation or poor application. NO self-tanner will streak if it is applied evenly.**

CAUTION: FOR EXTERNAL USE ONLY. Avoid contact with eyes. Keep away from children. Discontinue use if irritation develops. Store in room temperature away from direct sunlight. Contains no sunscreen.
