

## **Famous Dave's Spray Tan Product Description and Application Instructions**

### **Famous Dave's Spray Tan Sunsafe Tanning For Men & Women**

A blend of natural ingredients for a perfect tan without the sun.

Famous Dave's Spray Tan is a professional tanning formula designed to give you a totally natural looking salon-quality tan. Developed using a blend of natural ingredients including moisturisers, tan enhancers and skin smoothers, our natural tanning spray gives you an instant, streak-free and non-sticky tan that lasts up to 7 days depending on your skin type.

---

### **Application**

Wax/shave at least 24 hours prior to application to avoid irritation.

Apply on clean, dry skin. Exfoliate well for the smoothest coverage.

Do not apply any lotions, creams or deodorants to the skin before use.

Always wear gloves; spray lightly and blend evenly, paying special attention to elbows, knees, ankles, neck, fingers, toes, etc. Protect eyebrows & eyelashes and other areas you do not wish to tan with a barrier cream.

Spray lightly and blend evenly; it's best to use sparingly first time and build up your tan over a few applications.

Allow to dry for approx 10min before dressing.

Wear dark, loose-fitting clothes after tanning.

Avoid physical activity after tanning.

Do not bathe or shower for at least 12 hours.

Moisturise daily to ensure your tan lasts longer and wears smoothly.

Famous Dave's Spray Tan contains a guide colour to ensure even application. The guide colour may rub off on your clothes and bedding, however it will wash off easily.

---

**Remember Famous Dave's Tanner will tan you where you put it – haphazard or sloppy application will result in a blotchy, uneven tan. Patches or streaks are caused by insufficient exfoliation or poor application. NO self-tanner will streak if it is applied evenly.**

CAUTION: For external use only. Avoid spillage and eye contact. Keep out of reach of children. Store in a cool dark place. Discontinue use if irritation develops. Contains no sunscreen.
